## Secretaries in Eastern Kentucky.

Rev. John M. Moore, Ph. D., secretary of Home Missions, and Rev. W. F. McMurtry, D. D., Church Extension Secretary, have been on a visit to Eastern Kentucky, re- cently, looking over the field, to di- rect properly the expenditure of funds appropriated by their boards to the work in that important sec- tion.

They visited Paintsville, Prestons- burg, and other points in the "Sandy Valley," and then Dr. Moore continued his journey on horseback, accompanied by Rev. P. C. Ever- sola, to Whitesburg, Ky., and Ston- ews, Va. Wa have had an enthus- iastic letter from Mr. Moore, giv- ing account of his journeys and ex- pressing great interest in Home Mission work in that territory. He would have visited Hazard, and on to London, Ky., but it was impos- sible to secure horses for such long trips in the hot weather.

We are glad that our General Conference officers are at last turn- ing their eyes to Eastern Kentucky, and West Virginia. Those sections furnish rich fields for missionary enterprises, and will yield great re- sults when properly cultivated. — Central Methodist Advocate.

## Death of Mrs. Lakin.

Mrs. Effie Lakin, wife of F. M. who resides near Catlettsburg, died on yesterday morning after but lit- tle illness. Her remains were taken to Kavanagh on the morning of and B. S. train where the funeral and burial took place today. Mrs. Lakin is survived by a hus- band and four small children—Ash- land independent.

The deceased had numerous re- latives in the Kavanagh and Buchan- an section.

## BOYS CORN CONTEST.

### Division of Prize Money Already on Hands.

Mr. W. T. Kane was here Sat- urday in consultation with officials and citizens interested in the boys corn growing contest. The most im- portant thing discussed was the division of prize money already sub- scribed, which is fifty dollars by the fiscal court of Lawrence and five dollars by W. T. Kane. Other prize money and prizes are ex- pected to be added later, in which event an additional distribution will be made.

After the crops have matured the State Department of Agriculture will send a man here to decide who has won. Each contestant will be required to bring to Louisa ten ears of corn and the decision will be made from this display. The hu- letin's already distributed describe the points that make a good ear of corn and it would be well for the contestants to read upon this carefully.

Reports from various crops show that the boys are doing well and taking great interest in their work. The money already on hand will be divided as follows: 1st prize, \$15. 2nd, \$10. 3rd, \$5. 4th, \$3. 5th, \$2.50. 6th, \$2. The next ten, \$1 each. Best written history of his crop, \$5. Second best, \$2.50.

## D. B. Johns Visiting Here.

Mr. D. B. Johns, of Spring Val- ley, Wisconsin, was here this week, visiting his friends of the olden time. Mr. Johns is a son of the late Dan Johns, who in his day one of the most prominent men in the Big Sandy Valley. Mr. D. B. Johns was called to Kentucky by the illness of his sister, Mrs. Belle Johns McClelland, but did not ar- rived before her death. He left his Kentucky home in 1864, and this is his second visit to the scenes of his birth, the first return hav- ing been about twenty years ago. During his absence Mr. Johns has resided in the then territory of Dakota and the States of Minneso- ta and Wisconsin. He is a fine looking, intelligent gentleman, glad to see his old friends, and the pleasure is reciprocal.

His friends here are hoping that he will return to the south in Aug. 1st, rain or snow.

## Vinson Goes Back to Jail.

James Vinson, who has spent eleven of the last twelve months in the county jail, again escaped con- viction, the jury which tried him for felonious assault failing to agree. Vinson was unable to give bond and was taken back to jail to await the next term of court.

It will be remembered that Vinson was charged with murder al- so, one of his alleged victims dy- ing as the result of the assault. He was tried last term, on the mur- der charge and acquitted.

After the murder trial he was released on bond but had been free less than a month, before he was again in serious trouble, this time being charged with assaulting his parents and other members of his family.

Vinson was lodged in the Mate- wan jail after being held to the grand jury but escaped and kept away from the officer for a few days. He was apprehended, how- ever, and returned to jail here. — Mingo Republican.

## Killing Near Grayson.

Grayson, Ky., July 21.—Herbert Daniels, 20 years old, was shot in the head and instantly killed near here today. Mrs. Daniels, his moth- er, was walking beside him when the fatal shot was fired. Within a short time after the shooting Will- ard James was arrested.

Young Daniels and his mother were on their way to a Magistrate's court to make complaint, concern- ing damage done to a corn field by trespassing cattle. It is said that much feeling had been aroused in the neighborhood over the case, and when the Daniels declared their in- tention of invoking the law against the owners of the cattle, threats are said to have been made against young Daniels' life.

## Drowned Near Laynesville.

On Saturday morning last, Ad. Conley and one of his sons, a lad about 10 or 12 years old, were drowned in the Big Sandy near Laynesville, Floyd county, about 45 miles above Louisa. They were bathing not far from the Mouth of Mud Creek, and Mr. Conley at- tempted to swim across the river with his boy on his back. It is supposed that the boy became frightened and seized his father in a way that disabled him, and before help reached them, both sank to the bottom and were drown- ed. Mr. Conley lived on Mud creek not far from the mouth.

The bodies were recovered a few hours later.

## Destroyed by Fire.

The house owned and occupied by John Moore and wife, located on the ridge between Fort Gay and upper Tabor creek, was, with all its contents, totally destroyed by fire a few days ago. Mr. Moore and his wife, the only occupants, were away picking berries when the fire occurred. Its origin is un- known.

## STATE CHAIRMAN.

### R. H. Vansant, of Ashland, Offered Democratic Leadership.

The people of Eastern Kentucky, especially the Democrats, are well pleased with the selection of R. H. Vansant as chairman of the Demo- cratic State Campaign Committee.

Mr. Vansant is known to be one of the best posted politicians in the State, and his friends claim that he will not be controlled by any man within or without his party, nor will he be dictated to by any man or any faction of his party.

They claim, however, that he will be able to unite the Democrats in such a way that he will bring about results that will enable the party to carry the State in Novem- ber by 60,000 majority. They also claim that it will be his highest am- bition to so administer the affairs of his party that every candidate from the top of the ticket down will have the same devotion of his time and

## TWO KILLED

### And Others Wounded in Battle at Salyersville.

#### Leck and Bud Whitt Dead and James Harper and a Man Named Burton Wounded.

Lexington, Ky., July 26.—Desper- ately wounded in the pistol battle yesterday in the Courthouse yard at Salyersville with Leck Whitt, a mountain desperado, Bud Whitt and James Harper, survivors of the encounter, were brought to a Lex- ington hospital today in the hope of saving their lives. The wounded men were carried across the moun- tains a distance of twenty-odd miles on Mules borne by friends to the nearest railroad station.

Harper was shot through the windpipe and died this afternoon at 2:30 o'clock.

The fight was the result of a dispute over a tract of land. Bud is an uncle of Leck Whitt, who, he alleges, attacked him and Har- per, opening fire on them with a pistol in the Courthouse yard as they emerged from the County Clerk's office. A desperate battle followed in which all three partici- pated, and in which bystanders join- ed.

Leck Whitt's body was riddled with bullets, more than twenty tak- ing effect, resulting in his instant death. Bud Whitt was shot in the groin and back, and his recovery is doubtful. Harper is shot in the throat and head, and is partly paralyzed.

A bystander named Berton is also reported to have been se- verely wounded. Leck Whitt, the slain man, was regarded as a bad man in that section. The battle caused intense excitement in the town. Further trouble is feared.

## Bloody Breathitt.

A general shooting affray took place in Breathitt-co., Monday afternoon near the head of the South fork of Quicksand creek, in which William Swims and his wife were instantly killed, and Alonzo Allen was fatally wounded. Mrs. Swims was the mother-in- law of Norman Allen, a brother of the wounded man, and the kill- ing is the result of an old family grudge. It is alleged.

It is reported that the Allens were passing the home of the Swims and were called in for some purpose by some of the fam- ily. They had been in but a few minutes until the shooting be- gan.

Swims was shot a half dozen times or more; the wife was shot four or five times.

## The Late Mrs. Dillon.

Speaking of the late Mrs. John Dillon, of Catlettsburg, the Tribune, of that city, had the following:

There is an interesting coincidence in the dates at which the three great incidents in her life, and in the life of every human character, occurred. She was born, March 19, 1846; was married April 19, 1863, and died July 19, 1911. Her mar- riage occurred in this city, in a house not a square away from where her death occurred. She was a daughter of the late Arch- bald Borders, who a half century ago was one of the most widely known and highly respected citizens of the Sandy Valley, his home hav- ing been at Old Peach Orchard, Lawrence county, and she has many relatives, rather remote in their relationship, who reside along the Big Sandy river.

## SERIOUS OPERATION.

Mrs. W. A. Berry underwent a very severe operation at the King's Daughters' Hospital Mon- day morning and as we go to press this afternoon is resting nicely.—Independent.  
Mrs. Berry is a native of this county and was for many years a resident of this city.

## Wages of C. & O. Employees.

Richmond, Va., July 19, 1911. — At the general offices of the Ches- apeake and Ohio Railway Co., the following statement was given out: The C. and O. Ry. Co. granted an increase of eight per cent. to all employees engaged in the shops of the company during the year 1910 and is expected to make a further increase of this time owing to the large decrease in the net earnings due to the falling off in business and the large increases made last year in the wages of nearly every class of employees. The C. and O. Ry. Co. is now practically the same rates as the N. and W. Ry. Co. and has been a proposi- tion to the committee, but it will simultaneously with an advance in wages of shop men employed by the N. and W. Ry. Co. grant the same rate of wages to all employees of the C. and O. Ry. Co. engaged in similar occupations. As the N. and W. Ry. Co. has earned at the rate of about ten per cent on its stock during the fiscal year ended June 30th, 1911 and the C. and O. Ry. Co., but five per cent the management of the latter company trusts that the fairness of its po- sition will appeal to the great body of employees with whom rela- tions have heretofore been most harmonious.

## Was Very Sick.

"Billie" Wilson, of this city, was suddenly taken very sick last Sun- day night and for a time his life was despaired of. It was an aggravated case of cholera morbus and but for timely and intelligent medical aid the case would have resulted fatally. Mr. Wilson will pay more attention to his diet in the future.

## 21ST. ANNUAL REPORT

### Of the Lawrence County Sunday School Association.

The annual county convention was held at Louisa, July 12-13th, 1911, in the M. E. Church, South, called to order by Pres. M. S. Burns, at 9.45. Opening song, "All Hail the Power of Jesus Name," Prayer by Rev. Hardin followed by con- secration service, which was inspiring to all.

The first subject for discussion was the Bible and its topics. "Its History," the first was imported to us by Prof. Kennison.

"Men and Nations as affected by its Teachings," was interestingly given by W. J. Vaughan.

"The Sufficiency of the Bible as the Text Book of the Sunday School," was interestingly given by L. M. Copley, one of Lawrence county's greatest S. S. work- ers.

## Afternoon Session.

Divine service by Rev. L. M. Copley, followed by a cordial ad- dress of welcome by President M. S. Burns.

The functions of Sunday School were next given by W. J. Vaughan. In listening to the many discourses of this session we were thor- oughly impressed by Hon. P. K. Malin's talk, "Its Key Man." We were indeed proud to have Mr. Malin with us.

Lawrence county's debt to the Sunday School was interestingly given us by our former president, Hon. R. T. Burns. Uncle Roll's talk was enjoyed to the utmost by all. Lawrence county should be very proud of the noble Sunday School work done by him and will ever be in his debt.

## Night Session.

The regular programme for Wed- nesday night session was some- what changed because of the illness of our speaker, Dr. Hanford, and ab- sence of Judge Theobald, Miss Cart- wright, the world-wide evangelist and her beautiful alager, sweetly came to our rescue. A large crowd was in attendance and after a beautiful song service and special songs by Miss Gould and prayer by Prof. Kennison, we were addressed by Miss Cartwright, the loyal and devoted woman who has given her life to God.

We pray through her sweet in-

fluence and power hundreds may be reared.

## Thursday Morning Session.

Divine service in charge of W. L. Reid, followed by an inspiring consecration service to all. We must not forget the noble work done by our devoted secretary, O. J. Vaughan, the past year. He gave us a splendid report of the year's work showing an increase of num- ber enrolled.

Another vital question through the Cradle Roll was discussed in a very touching and beautiful man- ner by our own gifted Mrs. Nash.

Mrs. Wallace, very interest- ingly discussed the "Home Department" with her pleasing and winning man- ner. "We consider this one of the most important factors in his Sun- day School work. Every county should have a home department in touch with the Sunday School.

In listening to the many discus- sions of this convention none found its way to our hearts more than the "Teacher's Training Class," by Prof. Kennison. We consider teacher's training one of the most essen- tial point in Sunday School work. Let workers in Lawrence county awaken as never before. Make this your month, have training classes in every school. Do not forget the Home Department and Adult Classes.

Thorough organization was fully given by Rev. Harlin.

The convention in whole was a decided success, spiritually and financially. We consider it the best held in the county. All dele- gates seemed deeply interested. About 25 schools were represented. 64 delegates. Number of schools in county 69.

We wish to heartily thank the Louisa people for the splendid way they entertained the delegates. Al- so the choir for the beautiful music. We also wish to thank our president for his part in the com- pleteness of the programme.

But the climax of this glorious convention had not been reached until our tireless and devoted work- er, W. J. Vaughan, had given us the grandest inspiration of our lives in an account of his journey to the great international Sunday School Convention at San Francisco recently. It was the grandest talk we ever listened to.

Our closing hymn was "Precious Name." What a calmness came over us all during the singing of this blessed hymn.

A few more years and "Uncle Roll," the father of the Sunday School in this county, will have ceased to be with us. No more will we clasp glad hands and join in songs of praise with this grand old man. May we all meet at another convention, if not here.

ELIZABETH HATTEN.

## New Lawyers.

Fred Vinson and Fred See, two of Louisa's bright young men, were recently examined and admitted to the practice of law. Mr. Vinson has formed a partnership with F. L. Stewart under the firm name of Stewart & Vinson. Mr. See is also located at this place.

## ELECTROCUTED.

### Current Instantly Kills John Ward a Borderland.

John Ward, whose accidental death in a mine at Borderland last week has been mentioned in this paper, was killed in a very pecu- liar manner. Motor cars are used for removing the mined coal from the mines and young Ward was riding on one of the cars when the fatal accident occurred. At one of the cross entries or rooms the electric wires form a sort of switch or frog. As the car young Ward was on made the turning at this point the boy's neck was caught in the frog and he received the full force of the current. He was in- stantly killed and dropped under the wheels of the car. As stated last week in the News the body was taken to Whitehouse for burial.

County Treasurer and General Trader J. P. Gartin has opened an office on the first floor of the Louisa National Bank building.

## OF INTEREST FROM MANY STATES

Important News Gathered from Abroad for the Benefit of Our Readers.

Herbert Daniels, of Grayson, Ky., was shot and instantly killed Saturday while walking along a road at the side of his mother.

Gov. Willson fixed August 22 as the date for the electrocution of Oliver Locks from Jefferson county, convicted of the murder of his wife.

Under the system now in vogue in Kentucky scabies in sheep is said to be rapidly disappearing. The quarantine against twenty-five West Kentucky counties will soon be lifted.

Representative Ben Johnson, of the Fourth Kentucky District, issued a statement in Washington that he would support the Democratic ticket named at the July primary from top to bottom and was sure his friends would do the same.

Lexington, Ky., July 23.—Harlan Whitaker, one of the first "mountain men" arrested in 1900 in connection with the assassination of William Goebel, Democratic aspirant for the Governorship, was found dead today in a cornfield in Butler county. Heart disease was the cause of death. Whitaker was released after a long imprisonment.

Druggist Stockton has been missing his ducklings and young chicks for some time and the cause of their disappearance was a mystery. Sunday afternoon this young hulk dog, "Bob," caught a large groundhog in the act of bearing down upon the flock, and he made short work of the animal.—Richmond Citizen.

One day last week workmen engaged in constructing the Steers-Thompson turnpike, in the county, while excavating at a point along the line of the proposed pike, unearthed what experts declare to be a petrified ham of a hog. Probably it was hurled during the war to prevent its falling into the hands of foraging soldiers. However that may be, it petrification is all right and it is a perfect specimen of a ham.—Mayville Public Ledger.

A platform convention to be held in Louisville August 15 was called by the Democratic State Committee at the request of the nominees, represented by former Senator McCrory, who heads the ticket. Rufus H. Vansant, of Ashland, was elected chairman of the Campaign Committee and Judge Jere A. Sullivan, of Richmond, vice chairman. Certificates of nomination were issued to all on the ticket after the results of the official tabulation of the primary vote had been announced.

Elizabethtown, Ky., July 22.—Mrs. N. R. "Brashar," of near So-

nora, this county, relates a thrilling experience which she had this week with a large bird, which is said to resemble a sand crane more than anything else.

Mrs. Brashar was in a field near her home and, being attracted by the cries of her eighteen months' old baby, rushed to the child, whom she found in a desperate conflict with the bird. The frantic mother succeeded in freeing her child and then procured a shotgun and killed the bird, which had flown to the top of a nearby barn. The bird measured five feet from tip to tail.

Two women were made widows, thirteen children made orphans and, if James Ellis and Fount Helton, in jail at Somerset, charged with the murder of Magistrate A. J. Beatty and Constable W. F. Heath at Barnside last Saturday, are found guilty and electrocuted, as it now seems they will be, two more women will be made widows and seven more children made orphans. All of this is one result of the persistent and insolent violation of the liquor laws of Pulaski county. In addition to this, numerous other killings and dozens of shootings have occurred in the four counties of the Twenty-Eighth Judicial district, in the past few years, from the same cause.

### THE LEDGER ON O'REAR.

The Mayville Daily Ledger, leading republican paper of the Ninth Congressional District, had this to say about Judge O'Rear. Cut it out and save it for reflective reading. "As to the political charges against O'Rear, made not only by the Public Ledger, but by Governor Willson, Mr. Franks and scores of others, we repeat what we have said before, that O'Rear is unfit to be elected Governor of Kentucky and his very candidacy is an insult to the law abiding citizens of old Kentucky. That O'Rear on the bench of the highest court in the state is no compliment to the voters of his district. We furthermore say that when Judge O'Rear debased his high office by taking sides against the enforcement of the law by Governor Willson he should have been impeached.

"In all reason has there ever been anything analogous to the conduct of a Court of Appeals Judge making inflammatory speeches at a time when sedition was applying the whip to the backs of free born American citizens, the torch to their barns and dwellings and murder and intimidation were rife in the fairest sections of our Commonwealth?"

### HOLINGTON, KANSAS.

As a man located in the city of Holington, I will write a few sketches from this place and surrounding country. I can say that this has been one of the driest summers since I have been in the West. We have had practically no rain since last September. Wheat crop is almost a failure this year. Oats and corn are not much. Corn will be a failure if rain doesn't come in a few days. Potatoes and all gardens are a total failure. Only where city water was used to irrigate and this has been the hottest summer that I have ever seen in all my life. The thermometer has registered from 95 degrees to 115 degrees for the past 3 weeks, and we have had some awful hot winds from the south that simply cooked the leaves on the young trees and all garden truck, and the young trees have begun shedding their leaves like the fall of the year.

This certainly does look discouraging to us all, and more especially to the poor laboring class of people, for groceries are so high at present that a man has to have good wages to make it go. New potatoes are 3.25 bushel; old potatoes 2.40; bean meat 20 cents to 35 cents pound; ball from 12 1/2 pound; eggs, 11c dozen. But laying this all aside the farmers all say that they are satisfied with the fall and that it will throw them back a year. They can all stand it, as the farmers are all well fixed in this country.

Well, I will give you a few items in regard to the improvements in our city. First, is the fine M. O. P. R. shops that cover about ten acres of Kansas soil and cost \$1 of a million dollars. The big machine shop employs from 30 to 100 machinists at all times, and the big blacksmith shop with its fourteen big forge fires and about 60 to 75 men in there, and the big round house with no less than 150 men, and the big power house that has a large number of men. Besides there is the big coal chute that stands 50 feet in the air. This is the improved elevator coal chute, it is all operated by one man and the long cylinder is colored people and there are all the offices pertaining to this work that employ about 40 to 50 men. The R. R. Co., say that they have the largest and the best railroad yards here that are on the M. O. P. system. The yards alone will cover about 30 to 40 acres. The R. R. Co. is still making improvements here. The next to be is a fine large depot and in connection to that the Vane News Co. is going to build a \$70,000 hotel.

Now, I will say a few words in behalf of the city improvements. First there was an addition laid out South of the new shops of 20 acres, with only one dwelling on same. Today there stands about 60 dwelling houses, two hotels, one meat market and one store. This is called South Holington. There is another addition called Schyns Heights, where there are 10 or 15 new buildings. The main city has built over 100 houses in the last eight or ten months, besides business buildings of which there have been four big brick buildings and another to start soon of the same kind. The church people have been doing some big building. The M. E. Church built an eight thousand building a short time ago and since that time the Christian Church put up a sixteen thousand dollar brick church and at the present time the Catholic Church has started a new church building that is to cost eighteen thousand dollars above the foundation, and we have another new school building that will cost \$30,000. That will be completed about October.

Dr. T. G. Burton is president of this building from start to finish. Besides we have \$30,000 addition to the city water works and again there is to be a sewerage system put in this fall that will cost between \$25,000 and \$30,000. The contract is to be let about August 19. So you see this puts Holington on the boom right. Men, women and children are coming here every day and several going away on the account of not enough houses and rooms and hotels to care for them. If some Eastern men would come here and put up a good big hotel, he certainly could not make a mistake as we only have two in the city at present.

Well, I will bring my letter to a close, wishing to hear from all of my old Kentucky friends and especially my home folks. Yours in the dry West, M. F. ROSE.

### THE TYPHOID FLY.

The sense of smell of the typhoid fly must be very keen, although its selection of attractive odors undoubtedly differs from our own. It is very catholic in its choice of food—the milk jug and the freshly baked custard pie are apparently equally in favor with the slop bucket, the garbage pan, and all sorts of unmentionable filth. It knows the odor of cooking, and it flies eagerly towards the nearest kitchen, although the temperature of the kitchen stove may attract it almost as much as the possibility of something good to eat. Its food must be liquid, and when it lights upon a solid, a plentiful flow of a salivary fluid enables it to make some slight impression, and to gain sustenance. Everyone who reads this knows how in the old days, and even now in some places, the typhoid fly swarmed, or swarms in a certain class of public restaurants, and in poorly cared-for eating places. The story of the man who entered a dimly lighted railway restaurant and asked for a piece of that huckleberry pie, and was informed that it was not huckleberry, but custard, is literally true.

Three years ago I made an attempt to estimate the amount of money spent annually in screening houses in the United States. As close an estimate as could conscientiously be made seemed to indicate that more than \$10,000,000 are spent every year for this kind of protection against flies and mosquitoes. In fly-ridden localities the expense is undoubtedly justified since the majority of the flies are kept out by careful screening. No system of screening, however, seems to be so perfect as to keep them all out.

The whole expense of screening, however, should be an unnecessary one, just as efforts to destroy flies in houses should be unnecessary. Their breeding should be stopped to such an extent that all these things would be useless.—Dr. L. Q. Howard in The Christian Herald.

### KINMER.

Mrs. O. M. Frasher celebrated her 70th birthday anniversary by inviting her children grandchildren and friends in at her home near Kinmer, July 11, 1911. The guests were great and many. She seemed to enjoy it like a girl of 15 or 20. The presents she received were grand and she was real proud of all of them. The dinner that she had prepared could not be beat. Chicken, turkey, beef, pie, cake and most everything of so that could be put on a table was there and all were invited to help themselves. Her son-in-law, H. H. Nunsley, stood at the head of the table and returned thanks to the crowd, after which the old turkey leg was pulled off with other good things. Her children and grandchildren were all present except one daughter, Carrie Bostick, who was not able to come, she lives in Portsmouth, O. Her children present were, Mr. and Mrs. C. A. Frasher and children, Portsmouth; U. G. Frasher and children, Catlettsburg; Mr. and Mrs. M. C. Frasher and children, Kinmer; Mr. and Mrs. J. M. Frasher and children, Fallburg; Mr. and Mrs. S. G. Queen Rush; Mr. and Mrs. H. H. Nunsley Kilgore. Others present were Judge Thompson and wife, C. R. Lane, wife and children, Sarah Cochran and son, Lizzie Wooten and daughter Ida Frasher, Earl Frasher, Martha and Clara Layne, Mrs. O. L. Curran and children, Clara Stokes and children, Add Steens, wife and children, Abey Curran, Mrs. R. H. Billups, Emma Queen, W. Patton, Harry Grey, Mandy Dingus and children, Belle Fania, Mr. and Mrs. J. A. Burton and daughters, Bertha and Cora Wooten, Ed Workman, Charley Davis and daughters, Mrs. Saulsberry, Mr. and Mrs. J. M. Moore, Mary Frasher, Lizzie Adams and daughter, Mrs. Jaa Layne and daughter, Mrs. Dean, and many others that we cannot mention on account of space. Judge Thompson gave a nice talk followed by H. H. Nunsley. Everybody seemed to enjoy the day fine and went home rejoicing, wishing for another big dinner soon. One That Was There.

Friday, July 28, 1911

We are authorized to announce that R. C. McCURE, of Louisa, Lawrence County, is a candidate for Representative in the Ninety-eighth District of Kentucky, comprising the counties of Boyd and Lawrence, subject to the action of the Republican District Convention, date for the holding of which has not yet been fixed. YOUR SUPPORT EARNESTLY SOLICITED.

Mrs. Mary T. Proctor, aged 111 years, a real daughter of the Revolution, who has lived in three centuries, has just been discovered in a humble one-room cabin, in Barrow county, Georgia.

Cholera has broken out in a congested Italian quarter of Boston. There has been one death. The disease is supposed to have been brought to a lodging house by two sailors who disappeared after they were taken ill.

When the campaign between the Republican and Democratic nominees opens up this fall we may expect some great speech-making. Already a number of the most prominent democratic leaders in the country have given their promise to come and deliver a number of speeches in behalf of Mr. McCreary and Mr. James, while the Republicans will also have some of their biggest guns in the fight.

The Governor has appointed Judge C. R. McDowell, of Danville, as the Democratic member of the State Board of Election Commissioners to succeed himself. Judge McDowell has served as a member of the commission for several years, and the Democratic Committee placed his name on the list of office recommended to the Governor, from which one is to be selected. The Republicans have not sent in their list.

REPUBLICAN CONVENTION.

To the Republicans of Boyd and Lawrence counties:

The Republicans of the Ninety-eighth Legislative District of Kentucky, comprising the counties of Boyd and Lawrence, are hereby called to meet in Mass Convention in their respective counties on Saturday, August 19, 1911, at 1:30 p. m., Boyd County Republicans to meet at City Hall, in the City of Ashland, and Lawrence County Republicans to meet at the Court House in Louisa, for the purpose of selecting delegates to attend the Legislative District Convention which meets at Louisa on Saturday, August 26, 1911, to nominate a candidate for Representative to be voted for at the coming November election.

The basis of representation will be one vote for each one hundred votes cast for William H. Taft for President in 1908, and one vote for each fraction over fifty, and upon this basis of representation Boyd county is entitled to 23 votes and Lawrence county is entitled to 21 votes in said District Convention.

E. J. MARTT, Chairman of the 98th Legislative District of Kentucky.

THE PASSING OF A PATRIARCH.

Mr. William Bradley, aged 85 years, died at his home on the Bumpsville road, 5 miles from this city, on last Friday afternoon. He was buried at the home graveyard on the following day after funeral services conducted by the Rev. O. W. and Kate Old age and his usual infirmities caused his demise. He left a widow and several grown children to mourn the loss of the husband and father.

"Uncle Billy" was one of the best known men in this part of the county. He was an honest, industrious, sober man, quiet in his manner, but neighborly and helpful as long as he was able to go about. His friends will miss his presence.

ACT QUICKLY.

Delay Has Been Dangerous in Louisa.

Do the right thing at the right time.

Act quickly by time of danger.

Backache is kidney danger.

Don's Kidney Pills act quickly.

Plenty of evidence to prove this.

Dr. R. Frasher, Fort Gay, W. Va., says: "I consider Don's Kidney Pills the best remedy on the market for kidney and bladder complaint. I have prescribed this preparation in many cases and at the present time six or eight of my patients are taking it with excellent results. I have also used Don's Kidney Pills with the most satisfactory results, and am loud in my praise of them. The residents of this vicinity suffer considerably from kidney and bladder trouble, due to the poor quality of drinking water. I have found Don's Kidney Pills due to the poor quality of drinking water. I have found Don's Kidney Pills the one remedy that can be depended upon for relief. It has been my experience that difficulties caused by weak kidneys such as irregular passage of the kidney secretions, gravel, dropsical swellings, lumbago, pains in the back and hips, etc. can be removed by Don's Kidney Pills. A few doses of this remedy taken immediately when the trouble is noticed will save much misery."

Dr. Heisel Laid out Here.

Dr. W. A. Heisel, head of the Kentucky Bureau of Vital Statistics was in this city Wednesday. He had been to Paintsville, where he had been sent by the State Board of Health, to investigate and report upon the epidemic which has prevailed in that town and vicinity during the past few weeks.

Dr. Heisel held an interview with several of our physicians and discussed with them the serious conditions which prevail in that section. The doctor had made a careful and intelligent study of the situation and seemed impressed with its gravity. He found very many who were sick, having examined 21 cases of illness on the last day of his stay.

In some places the unsanitary condition was so serious, that he was being indiscreetly save in the columns of a medical journal. He says the epidemic is one of typhoid dysentery, wholly preventable. The germ of the disorder must be to speak plainly, swallowed in order to cause the disease, and this fatal germ can, with proper care be kept out of the system. Through our County Health Officer, Dr. A. W. Bromley, Dr. Heisel called a public meeting at the Court House to discuss sanitation.

Supr. O'Daniel heard of the proposed meeting and at once invited the meeting to the institute. The invitation was accepted and shortly after one o'clock, p. m. the meeting opened in the auditorium. After a few remarks concerning the purpose of the State Board of Health and the Bureau of Vital Statistics and the reason for his visit to Paintsville Dr. Heisel was introduced to the audience by Dr. G. W. Wooten.

The address which followed was one worthy of the vital cause for which the doctor is at work. The teachers who heard it can, if they will, do some mighty good missionary work in cause of proper sanitation.

CUT OUT THE "CARNIVALS."

There is considerable complaint from the better class of citizens about the "street carnival" now occupying a good portion of our streets near the college building. The aggregation is composed very largely to negroes. The reports that followed them here from Pikeville were anything but complimentary. Two white girls about 16 years old came here from Pikeville with them, but were arrested and sent back.

The city authorities should not permit such things to come into the town. There is absolutely no good argument that can be produced for letting them in. And to reduce the license fixed by law is giving the citizens a double dose of very bad medicine, and one which they are taking with a very wry face.

THE CAMPMEETING.

The Fountain Park campmeeting closed last Sunday night. The attendance was large up to the last service. The effect of the meeting was good and all who were connected with it feel that the labor was worth while, although the results that had been hoped for in the way of conversions were not realized. Misses Cartwright and Gould worked earnestly and were faithfully assisted by the local ministers.

IN DENTIST LATER.

Why some of our people who could make the condition of things much more tolerable seem content to inhale great quantities of germs laden dust is past finding out. For more than ten days but much more than a sprinkle of rain has fallen here, and as a consequence the dust is at this writing, stifling. The town pays \$150 a year for the privilege of using a few sprinkling plugs, and it is safe to say that some of the sprinklers have been very seldom, if ever, used. Clouds of dust get into stores and dwellings, raising goods and furniture and poisoning lungs, when the whole ugly condition of things is easily relieved. "O well, perhaps it will rain tomorrow," and then we cross the weather and the dust and go along just as before.

RAZED TO THE GROUND.

Killing wood is being made at the frame shacks between the residence of Mrs. McHenry and the store of Sam Bartram on Madison street. In their place Henry Evans will put up a handsome modern residence. Their combustibility has long been a menace to that neighborhood, and their demolition causes no regret.

THE KENTUCKY CORN CROP.

The report on July crops speaks thus of corn: "The Kentucky corn crop, on the other hand, is given a great send-off by the report. It is given as 50 per cent. on July 1 as compared with 54.55 on July 1, 1910, and a ten-year average of 54. Kentucky wheat is rated at 53 as against 51 on July 1, 1910, and a ten-year average of 51."

W. D. Pierce, who has been sick for some time, is able to be out.

W. A. Morris was in the News office yesterday and ordered the paper sent to his son, Charley, who is in the Philippines with the U. S. army.

Mr. Oscar Graham, of Prosperity, has returned from California, where he went several months ago in pursuit of health. His friends will be glad to learn that he is very much improved.

The Palmetto Herald has reported, this time under the ownership of the Herald Printing Co., with Charles A. Kirk, who eight years ago conducted a newspaper at Palmetto, as editor.

In last week's issue we erroneously stated that Dr. Hannibal Gamble, of Van Lear, was in Riverside Hospital with typhoid. The name should have been Dr. Holbrook. He is getting along nicely.

The Louisa Water Company has been having a strenuous time for the last ten days in trying to furnish water to its patrons. Several times the supply has failed, entirely, and the pressure has been weak at all times. Luckily there has not been a fire during this period. The streets are very dirty and very little sprinkling is being done.

Mr. A. M. Kennedy, U. S. Inspector, will about August 1st, move his family to Fourteen, Kentucky river, where the government is building the coal lock and dam for that stream. Mr. Kennedy will be the official inspector of the work, which will probably require two years for its completion, and this compels his leaving this city. He is a competent man in his position, standing well with his superior officers. His many friends here regret the departure of Mr. Kennedy and his family.

Last afternoon, Miss Carolyn Lee, of Sixth avenue, one of the attractive girls of the younger set, arrived home from Louisa, Ky., where she has been attending a delightful home party given by Miss Lucile Sullivan, at her pretty residence in that town. Many enjoyable social affairs and happy outings in the country were rendered in honor of Miss Lee and the other visitors, all of whom derived much pleasure from the sojourn.—Huntington Advertiser.

#### SALE OF THE SAVOY.

The Hotel Savoy has been sold to Philip Proctor, of this county, and he will take possession next Tuesday. The selling price for house, furniture and fixtures was \$1500. The hotel will be rented to parties who will continue the business. Mr. R. C. McClure, the present proprietor, has kept a good hotel, serving a good table and furnishing the traveling public with clean, comfortable rooms and courteous attention.

#### NEW OIL WELL ON BEAVER.

An oil well was drilled in last week on Beaver creek in Floyd county that is estimated to produce twenty barrels per day of high grade oil. It is on a boundary of Beavers containing nearly five thousand acres and near the wells that have been producing oil for several years. The company is composed of G. H. Dink, M. C. Watson and others.

OBITUARY.

R. Platt White

Brother R. Platt White was born in the county of Wayne, W. Va., March 23, 1871; died at his home in Russell Ky., May 23, 1911, after a lingering illness of many months' duration. He was married to Miss Jennie Hall on June 15, 1903. To this union there was born one child, which died in infancy.

Brother White had long been a consistent Christian and a loyal member of the Southern Methodist Church. He had been honored by his brethren for several years with a position on the official staff of Mead Memorial church, and for the past year or two had been the treasurer of that board of trustees. He was also one of the leading spirits in the building of the new church at this place, and was a most faithful and zealous worker in the construction of the building. He was one of those rare spirits upon whom his pastor could always rely for sympathy and practical help in everything which was designed for the advancement of the Kingdom of our Lord. In every position in the church and in business, although the work was heavy and his physical strength small, he gave untiring devotion and was never too busy with his own private business to lend to the church the benefit of his counsel and the inspiration of his effort. He was a man and wife man in every walk of life. One upon whom his business associates learned to rely and in whose religion everyone who knew him had perfect confidence. In his death the church has lost a valuable man, whose place will be hard to fill.

As a citizen, Brother White was clean and his wholesome influence upon the civic life of the town will be felt for a long while after his form and face have been forgotten. He was a patriot and loved the flag under which he lived with a devotion next to that which he gave to his God. He had been a soldier in the U. S. Army for several years, during which time he served his country faithfully in the Philippines and Cuba after which he was honorably mustered out.

May the blessings of God rest upon those whose hearts are heavy over this bereavement and may his mantle fall upon other shoulders who will carry forward the work so dear to his life. Upon the little woman who sits alone in her home today may the benedictions of heaven rest, bringing peace and comfort to her troubled heart.

C. A. SLAUGHTER,  
Russell, Ky.

## Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness, caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O.

Don't think because you are fresh from the hands of your tailor and your barber, that you will pass for a gentleman, unless you are one. You might carry the perfume from about you for ages without once being mistaken for a man.

Let it be the aim of every young man, every business man, above all things else, to keep his purity unimpaired. This is the best possession—this is a capital which can never be taken from him—this is the richest inheritance which he can leave to his children.

Sarcasm and nagging are to the atmosphere of love what sandflies and fleas are to summer weather. Who would not prefer an occasional brush with a roaring June bug, to the eternal torment of a flea you can't catch.

We think home love is the best. The love that you are born to is the sweetest that you will ever have on earth. You, who are anxious to escape from the home nest, pause a moment and remember that this is so. It is right that the hour should come when you in your time should become a wife and mother and give the best love to others, but that will be just it. Nobody, not a lover, not a husband, will ever be so tender or so true as your father or mother. Never again after strangers have broken the beautiful bond, will there be anything so sweet as the little home circle of mother, father and children where you were cherished, praised, protected and kept from harm.

Now we want to say something to husbands. These dear aggravating, indispensable creatures, that there is hardly any living with or without. If your wife or daughter has been heading over the hot stove and a sewing machine all day, she needs to ride out in a vehicle or horseback. Don't think we are a fit subject for a banister as if we tell you to stop a horse out of "the trap" and take her or let her go by herself if she is not afraid. There is not more sense in temperate work than temperate rest. You may have to stop longer to pay the bill. You will be sorry some day when those tired hands hold white flowers under a pall that you did not look more after her health and comfort.

Give as the woman who is willing to adapt herself to circumstances, and who, after an exertion of efforts has such an undying faith, her motto is, "Though he may play me, yet will I trust him." The woman who will not be miserable over the past, but will cling to the future with hope, for hope is the blossom of happiness; the woman not afraid to superintend her domestic affairs and then grace her partner with as much dignity and confidence as if she were the wife of the president of the United States; the woman, who would cling to her husband through thick and thin, remembering she took him for better or worse.

## LOOK OUT FOR THE CARS

DO YOU know of anyone who is old enough to read, who has not seen that sign at a railroad crossing?

If everyone has seen it at some time or other, then why doesn't the railroad let the sign rest away? Why does the railroad company continue to keep those signs at every crossing?

Maybe you think, Mr. Merchant, "Most everybody knows my name, I don't have to advertise."

Your store and your goods need more advertising than the railroad need to tell people to "Look Out for the Cars."

Nothing is ever completed in the advertising world.

The Department Stores are a very good example—they are constantly advertising—and they are constantly doing a good business.

His pays to run a few ads "round about Christmas time, it certainly will pay you to run advertisements about all the time.

LOUISA.

Do not we all remember with pleasure the days when "the others" were out, or we, perhaps, not perfectly well, and mother had us in her drawing room, or work room, or took us out for a little walk alone? Not that we did not love to romp and play. Not that we did not appreciate to the full the pictures and other family expeditions which took place from time to time; but there was enjoyment of a very different, deeper sort in those quiet times with mother, the remembrance of which has lasted half a lifetime.

There is a vast difference between a house and a home. The house is but the building and furniture, the outward shelter and gathering place of the household. The home includes the kindly family affection, the thoughtful care and ready sympathy and mutual confidence and trust of members. A phase of love.

We know that lips will curl with scorn, and society will sneer, if we reach our hand to the outcast, but God and the angels will be glad, and if a soul be thus saved, what matters it?

Flinging may seem to the giddy and thoughtless girl wonderfully amusing and she may get the idea that she is fascinating, but it is a most degrading thing and she should be frowned upon by every young lady who has an ambition to become a worthy and charming young woman.

For a good, every-day household angel give us the woman who laughs. Her blarney may not always be just right and she may occasionally burn her bread and forget to replace dilapidated buttons, but for solid comfort all day and every day life is a very paragon. Home is not a battle-field, nor life one long unending row.

Our habits run formed under the moulding power of home. The "tender twig" is there first, the spirit shaped, principles implanted and the whole character is formed until it becomes a habit. The gray haired father who walks in the sacred infancy, feels the traces of his childhood home in his spirit, desires and habits.

Of one thing we are certain, we are too chary of our commendations too stingy of our praise, and almost too lavish of our blame. "Thoughts are things," and words, if true, are their manifestations. How often have we thought favorably of many things, yet said no word. For all such sins of commission we must ever suffer deep regret. How easy it would have been to have said, "That is so beautiful!" or "how well you do!"

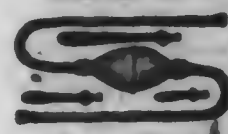

A Peek Into His Pocket would show the box of Backus' Arnica Calve that E. S. Loper, a carpenter, of Marilla, N. Y., always carries. ## OF THE JESUIT

CHRONICLES 24:14-23—July 20

The word here I bid to my heart, that I might not be an agent then.—Psalms 119:105

In conjunction with Josiah's reformation and changing of the temple, a copy of the book of the Law was found. Presumably this book contained the Pentateuch or five books of Moses. The long period of idolatry preceding Josiah's work of reformation had placed the Testaments of the Lord at a discount, so that evidently the king had never seen, perhaps had never heard of the Divine Law up to this time. The royal copy was doubtless destroyed long before.

The king caused the manuscript to be read in his hearing. It detailed what blessings would come upon the nation if obedient to God. It also portrayed the penalties which would be theirs if they neglected the service of the Almighty and His Laws and became idolatrous. Determined to do what appeared to be the penalty due Josiah's kingdom because of idolatry preceding his day. The king was astonished. Evidently Divine judgments were due. Why they waited he knew not. He reflected that possibly something might yet be done to effect the evil. He sent therefore to make inquiry on the subject.

The inquiry came to Huldah, a prophetess of that time, who gave the Lord's answer, saying that all the woes foretold in the Law would surely come to pass because of the idolatrous course followed by the nation. But the message declared that this trouble, this chastisement, would be deferred and not come in King Josiah's day because of his earnest repentance and manifestation of sorrow in connection with the matter as soon as he learned about it.

## The Bible Lost Today

It may come some when we say that to the masses of the people today, God's Book is lost. What do you say, have we not over a hundred million Bibles in Christendom, and are we not giving more than a million copies every year?

Alas! Bibles we have, but to the majority of the specially cultured they are Bibles no longer—they are the inspired Word of the Almighty no longer. They are studied, believed and obeyed no longer. It is still fashionable to have Bibles; it is still customary to take texts from them—this is done even by ministers who privately confess that they have no faith in the Bible—that they have no more faith in the Bible than in Shakespeare. And the number of religious teachers who have thus rejected the Word of God as the Divinely Inspired Message is much greater than the majority of people realize. Nearly all ministers graduated during the past twenty years from nearly all of the colleges and seminaries of Christendom, in Great Britain, Germany, the United States and Canada—are really infidels, unbelievers. These today are styled High-Critics, but Higher Critics are really infidels—come of them even profess atheism, denying a personal God, recognizing only nature as God.

How did the Word of the Lord come to be thus lost?

We answer that history shows a long period called the Dark Ages in which the Word of the Lord was not able to enter the favor of church councils and doctors.

Then came the period of the Reformation. The Bible was translated by the Catholics into the Vulgate and the Douay Version. It was translated by the Protestants into English and styled the King James Version, and were more the Word of God began to exercise a transforming influence upon humanity.

But alas! the errors, the darkness, the superstition of the Dark Ages already in the human mind gave to the Word of God peculiar distortions and made it appear through the colored glasses of sectarianism to mean things wholly irrational and inconceivable.

As a result school men, college professors, Doctors of Divinity, etc., have charged up against the Word of God various doctrines which it does not teach—amongst others Preterist and eternal torment for all except the "very elect."

## Finding the Word of God

Now, in due time, the Word of God is being found. The dust of the Dark Ages is being brushed aside. The Book is being investigated in the light of its own teachings. It is showing with wonderful brilliancy upon the path of the just. We are seeing fulfilled before us God's promise that the path of the just will "shine more and more unto the perfect day." Its bright shining at the present time betokens that the New Day, the New Era of Messiah's Kingdom is nigh, even at the door (Matthew xxiv, 35; II Peter i, 19).

## OUR SCHOOL DEPARTMENT.

### TEACHERS' EXAMINATION.

At the examination held in this city on Friday and Saturday last there were 24 applicants. The following five received first class certificates: K. L. Swenson, 96 1-11; T. S. Spradlin, 90 1-11; Virginia Shreves, 96 10-11; Mrs. Cordelia Spradlin, 96 6-11; and Green Wellman 93 2-11.

There were three second and two third class certificates granted and fourteen applicants failed entirely. Considering the severity of the examination the grade of 96 1-11 is phenomenal. It is the highest grade obtained during the administration of Supt. O'Daniel. Mr. Swenson is a "home grown" product and has reason to be proud of his distinction.

### STREET SHOWS DENOUNCED.

Louis, Ky., July 25th, 1911. Be it resolved by the teachers of Lawrence county, Ky., in Institute assembled that we put ourselves on record as being opposed to all forms of sin and immorality.

We believe a Teachers' Institute should be conducted without anything to detract from the interest thereof.

We believe street shows and carnivals not to be uplifting to the morals of a community, neither do we think them educational in their make-up.

For these reasons we unreservedly denounce the same and hereby put ourselves overwhelmingly on record as opposed to them.

We recommend that the same be removed at once from its present location, or if possible, from the town and county.

Unanimously adopted by rising vote, with hearty applause.

T. J. COATES, Instructor  
J. O'DANIEL, Supt.  
EMMA THOMPSON, Sec.
